NOTICE REGARDING THE PROCESSING OF PERSONAL DATA OF VISITORS TO THE EXHIBITIONS MEAT-TECH AND IPACK-IMA

In accordance with art. 13 of EU Regulation 2016/679 – General Data Protection Regulation (hereinafter referred to as “GDPR”)¹, we wish to provide some information regarding the processing of personal data of any person (“Visitor”) who intends to register, apply for, book or purchase entry tickets (including tickets, cards and invitations) to attend the aforementioned events held at the Fiera Milano exhibition centre from 17 to 20 May 2021 and from 3 to 6 May 2022.

The personal data requested on the registration or accreditation form, including the Visitor’s identification data and e-mail address, position and area within the company, company telephone numbers and e-mail addresses, are collected and processed by the Data Controller Ipack-Ima s.r.l. (hereinafter referred to as “Data Controller”), which organises the related exhibitions, and Fiera Milano S.p.A., which manages the Rho exhibition centre and related services (hereinafter referred to as “Data Processor”).

The Data Controller and Data Processor process the Visitor’s personal data for the following purposes: managing his/her registration or accreditation, issuing or sending entrance tickets, providing services relating to the attendance of the chosen event(s), fulfilling regulatory obligations and perform the related administrative and accounting activities. Processing of the Visitor’s personal data is therefore necessary for establishing and fulfilling the contract in relation to access to and attendance of the exhibition, fulfilling the relevant legal obligations and protecting the legitimate interests of our Companies and of the other organising companies with whom the data have been shared for the purposes of managing administrative, organisational, technical and safety activities relating to participation by Visitors in the above-mentioned exhibitions and provision of related services.

Complete or partial failure to provide personal data indicated as obligatory in the form may prevent the completion of the registration or ticket application procedure, whereas the authorisation of certain additional data that may be useful for improving our services and facilitating contacts with the Visitor is optional.

For these purposes the data acquired in this way will be processed wholly or partly by electronic means, including prevalently computerised procedures and methods suitable for ensuring correct management of the services provided and may also be retained after the event for administrative, accounting, tax purposes, for the terms provided for by the relevant regulations (generally, ten years)

For the above purposes, in addition, the data may be divulged to employees and workers duly authorised by the Data Controller and the Data Processor for activities of their respective competence relating to the organisation and management of the event(s) as well as the provision of services for Visitors.

For the above-mentioned purposes, the data may be communicated to other companies in the Fiera Milano Group for internal administrative purposes and to trusted companies, which in their capacity as Data Supervisors provide us with organisational and technical services relevant to the event, such as stand fitters, support and maintenance companies, printers, data processing companies, administrative consultancy studios and companies appointed to assess the performance of the event. The companies that process personal data on behalf of Ipack Ima s.r.l. and Fiera Milano S.p.A. work as data supervisors in accordance with the specific obligations established in the service contracts.

The Visitor’s personal data are not transferred to companies located in countries outside the EU.

The email and postal addresses provided by the Visitor for the purposes of registration and for applying for tickets, cards and invitations may also be used by the Data Controller in order to send out the newsletter and communications relating to similar events and services of interest to the Visitor. Visitors may oppose the sending of these communications at any time (immediately or at a later date) by ticking the relevant box at the end of the form or by sending a message stating their opposition from their email accounts to the email address **privacy@ipackima.it** or by sending postal notification at the addresses indicated below.

In addition to the aforementioned activities of sending out newsletters and communications relating to events and services of interest to the Visitor by e-mail or postal mail, the Visitor’s data may also be processed by the Data Controller, after receiving the Visitor’s consent (granted by ticking the relevant boxes at the end of the form), for the following purposes:

- a) sending advertising and direct sales materials and performing market research or sending commercial communications by post, telephone, automated calling, fax, e-mail, text or mms messaging systems in relation to additional exhibition events and the services and products of Ipack Ima Srl, companies in the Fiera Milano Group and third parties (organisers, exhibitors, stand fitters and qualified operators involved in the exhibition events or also operating in other sectors) interested in proposing favourable commercial offers to the Visitors;
- b) analysing the data, events and services pertinent to the Visitor in order to identify, wholly or partly by electronic or automated means, their preferences and any services and products in which they may be interested (profiling);
- c) transferring data to UCIMA, Proma-Pack Srl, to companies in the Fiera Milano Group, as well as to other parties, including organisers, exhibitors, stand fitters, qualified operators involved in exhibition events or also operating in other sectors, such as market research institutes, sponsors and suppliers of Fiera Milano, for their own autonomous processing, as Data Controller, for the purposes and by way of the procedures specified in point a) above.

For the above-mentioned purposes, the provision of data is optional and does not affect the Visitor’s registration with or participation in the event. The Visitor has the right to revoke previously granted consent without affecting the lawfulness of processing based on consent granted prior to revocation.

¹ The GDPR applies to personal data of individuals and not to information regarding companies, institutions or associations (e.g. name, registered offices, activities). Only specific regulations on the transmission of commercial electronic communications remain applicable to legal entities. For this reason, even if the Visitor is a company it is required to provide consent to the processing of data for direct marketing purposes.

In accordance with the provisions of the GDPR (arts. 15-22), the Visitor is entitled to access and obtain a copy of his/her data at any time, to correct or supplement them if they are imprecise or incomplete, to erase them or restrict their treatment if the necessary conditions are met, to object to their processing for reasons relating to the Visitor's specific situation and in any case to their processing for direct marketing purposes, to request the portability of submitted data in the event they are processed in an automated manner for fulfilment of the contract or on the basis of consent provided by the Visitor, and to file a complaint with the Italian Data Protection Authority for the protection of the Visitor's personal data and rights in the event he/she considers that they have been violated.

For any clarification or request regarding the processing of his/her personal data, the Visitor may contact the data controller Ipack-Ima s.r.l., with registered offices in Strada Statale del Sempione 28 – 20017 Rho (Milan), e-mail privacy@ipackima.it, who the Visitor may contact not only in the exercise of the aforementioned rights but also to obtain an up-to-date list of the recipients of the data and of the data supervisors that may be designated by our Companies.

VISITOR'S AUTHORISATION OF PERSONAL DATA PROCESSING

With regard to the privacy notice provided above regarding event registration, I declare that I authorise Ipack Ima Srl to process my personal data for the following purposes:

- a) sending advertising and direct sales materials and performing market research or sending commercial communications by post, telephone, automated calling, fax, e-mail, text or mms messaging systems in relation to the exhibition events, services and products of Ipack Ima Srl and of the companies of Fiera Milano Group and of third parties, as indicated in the notice:

Yes, I authorise processing - No, I do not authorise processing

- b) analysing my data in order to identify, also using electronic means, my preferences and any events, services and products in which I may be interested (profiling):

Yes, I authorise processing - No, I do not authorise processing

- c) communicating my Personal Data to UCIMA, Proma-Pack Srl and to other companies in the Fiera Milano Group, and to third party companies belonging to the economic categories indicated in the notice, for their own autonomous processing, as Data Controllers, for the purposes and by way of the procedures specified in point a) above;

Yes, I authorise processing - No, I do not authorise processing
